# Piedmont Plants

**Piedmont Plant Co.**  
ALBANY, GA.

E. P. DuVernet

# *Start with Piedmont*

**O**VER a period of forty years Piedmont has made a business of starting thousands of gardens in every section of this country. Realizing that any good result must have a good beginning, we offer you products which sum up forty years of effort to give your garden a better beginning.

The above picture might be called a preview of your Piedmont-started garden. The ideal climate and experienced care which Piedmont Plants receive would be wasted on any but the finest of seed. Knowing this, we buy our seed from leading seedsmen—seed which has been thoroughly tested in trial grounds such as the one pictured. Such seed is far superior to packaged seed. Thus Piedmont plants are given the best start obtainable in the gardening world.

We of Piedmont hope that this spring more than ever before you are prepared to do your share of gardening. In spite of rising costs we continue our policy of low prices. How many products can you buy today at the same price of four years ago? Piedmont offers you such a product—one which helps meet two pressing needs, food in a hungry world and savings in your family budget.

Plant a garden today which will put crisp vegetables in a perfect condition of freshness on your summer menu. And remember—if you want your garden started right, start with Piedmont.

Yours very truly,  
PIEDMONT PLANT CO.

E. P. DuVernet.

*Field of Frost-Proof  
Cabbage Plants*

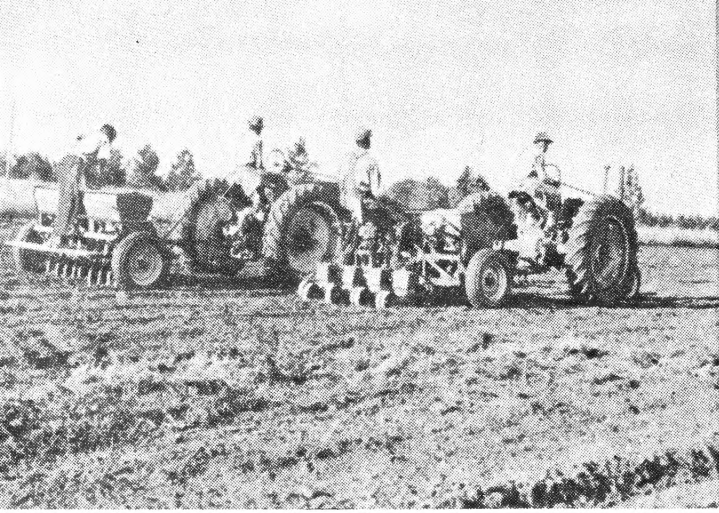

## *Quality in Plants*

**PIEDMONT FIELD-GROWN PLANTS.** The market gardener who grows vegetables for early market knows how important it is to get crops on the market early, if large profits are to be realized. The home gardener also wants early vegetables. To get an early start it is necessary to grow seedlings in hot beds, transplanting them to cold frames to harden. The best and cheapest solution to the problem is to set Piedmont Field Grown Plants.

**SUITABLE CLIMATE NECESSARY.** In the middle south the climate is adapted to growing plants in the open, which are hardy enough to set in the open farther north. Our farms are located where there is enough cold weather to grow plants hardy enough to set in the open fields.

**SELECTED PLANTS.** Piedmont Plants are grown from high grade seed, and will be found true to type and variety. Our plants are hand selected, and are large enough to set in the field. No small, inferior, trashy plants shipped. We ship you the kind you order, properly labeled, and full count guaranteed.

**SATISFACTORY DELIVERY.** Some people hesitate to order plants from a distance, because they are afraid that tender plants cannot be delivered in good condition. We have shipped our plants successfully for many years all over the United States. We have satisfied customers in every state. We guarantee to deliver the plants you order in perfect condition. If you are not satisfied on delivery, we will replace your order.

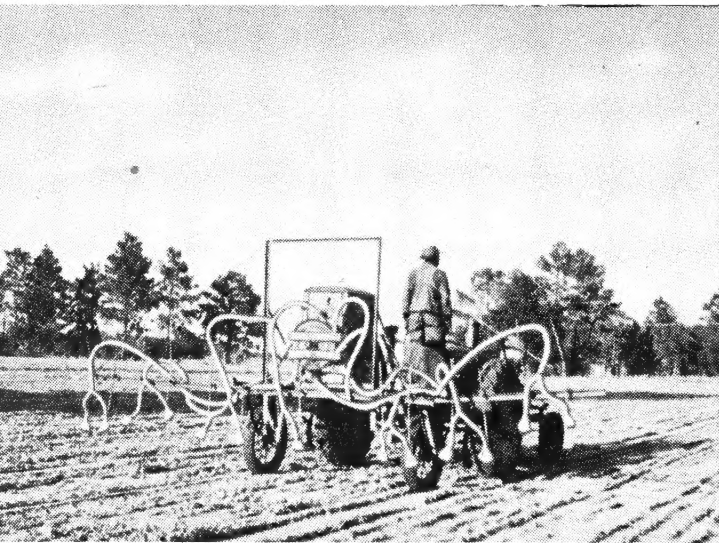

## Seed and Planting

We use the best seed available, certified where possible, and grown for us by the leading seedsmen. This seed is planted on disease free land by methods developed through years of experience. Illustration shows modern, high speed tractor drills fertilizing and planting eight rows of cabbage seed at a time.

## Cultivation

Our plants are given every care and attention during growth so as to insure large, healthy, deep rooted plants. Illustration shows tractor cultivator cultivating and fertilizing eight rows of cabbage plants in one operation.

## Insects and Disease

In order to ship clean plants, free from insects and disease, we use the latest and most improved dusting and spraying equipment. Illustration shows a high power duster dusting twenty-four rows of cabbage plants to a through.

## Irrigation

As an insurance against drought we are prepared to irrigate our plant fields. Illustration shows portable irrigation on seed beds just planted.

# Frost-Proof Cabbage Plants

*Golden Acre*

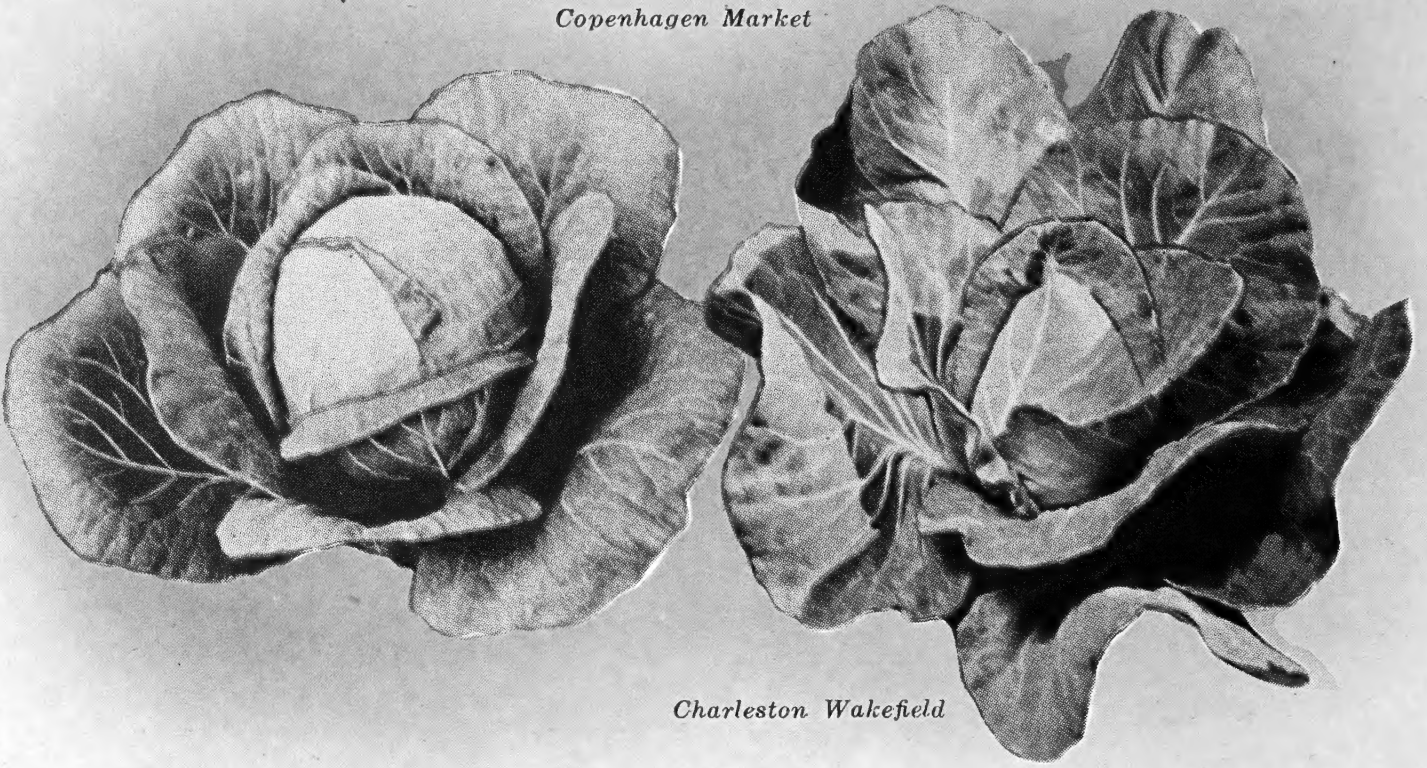

*FIELD OF YOUNG CABBAGE*

**T**HE Frostproof Cabbage Plant has become so well known that it is hardly necessary to point out its advantages.

On our farms the soil and climate are especially adapted to the growing of hardy, tough, healthy cabbage plants. The plants make a slow growth during the early part of the winter and spring, and soon become very tough and hardy. They will stand a temperature of 20 degrees above zero without injury and can be shipped to territory with a colder climate. Light snows, sleet, and moderate freezes will not hurt them, and they can be set in the open four to six weeks earlier than hotbed plants. The top of the plant does not grow, but the root becomes established, enabling the plant to make a rapid start, and mature headed cabbage two or three weeks earlier.

Piedmont Field-grown Frostproof Cabbage Plants will produce bumper crops early enough to get top prices.

Charleston Wakefield

## VARIETIES

**CHARLESTON WAKEFIELD** — 71 days from plants. Heads pointed and heart shaped, weighing 4 to 5 pounds. This is a selection of the Early Jersey Wakefield, a week later, but with larger heads. Popular for the home garden, and very cold resistant. Plants ready January to June.

**GOLDEN ACRE**—65 days from plants. Earliest round headed cabbage, averaging 3 pounds to the head. An extra early Copenhagen Market with a smaller head. Heads are round and solid. A favorite with market gardeners for early market. Plants ready January to June.

**COPENHAGEN MARKET** — 70 days from plants. The leading market variety. Heads large, round and solid with few outer leaves, weighing 3 to 3½ pounds. Our strain of this variety is extra early, and very uniform. Plants ready January to June.

**EARLY ROUND DUTCH** — 75 days from plants. An excellent second early variety for home and market garden. Heads ball shaped, very firm, weighing 4 to 5 lbs. Cold resistant and seldom goes to seed. Plants ready January to June.

**DANISH BALLHEAD or HOLLANDER**—100 days from plants. Most widely used and the best of the late varieties; desirable for shipping, storage, and kraut. Heads deep round, very hard, and decidedly compact, weighing 6 to 7 pounds. Plants ready March to June.

**MARION MARKET**—75 days from plants. A yellows or wilt resistant type of Copenhagen Market. Same shape as Copenhagen, but will make a heavy crop on land infested with yellows disease where other varieties fail. Somewhat coarser than Copenhagen. Plants ready March to June.

# Frost-Proof Onion Plants

*Yellow Sweet Spanish*

*Crystal Wax Bermuda*

**S**OUTHERN grown onion plants are no longer an experiment. Large quantities are set out every year, and they are rapidly displacing sets. They will grow large, sweet onions early, and are good keepers. They produce onions two to three times larger than sets, and seldom run to seed. They can be set early, the same time you would put out sets or cabbage plants. Therefore we strongly advise you to use our plants instead of sets, whether for the market or home use. Piedmont Onion Plants are grown from the very best seed, and will be found true to name. Ready January 1st to July.

## VARIETIES

**YELLOW BERMUDA.** The most popular and widely planted of the Bermuda varieties. It is sometimes called the White Bermuda although it is a light yellow or straw color. This is a thin flat shaped onion, and very sweet; many people eat them like an apple.

**CRYSTAL WAX BERMUDA.** One of most attractive onions grown. It is clear,

waxy white onion, and has the same delightful mild flavor as the Yellow Bermuda. It is the same shape as the Yellow Bermuda.

**VALENCIA or SWEET SPANISH.** A globe shaped onion, light yellow in color, and grows as large as the Prizetaker. It is mild in flavor, a good yielder and a splendid keeper.

## Lettuce Plants

While not quite so hardy as cabbage and onion plants, our Lettuce plants will stand considerable frost and cold weather. Good head lettuce can be grown in the home garden. Set out some of our plants this year instead of buying your lettuce. Set out at about the same time as cabbage. Plants ready January 1st to June. Shipping weight 18 lbs. per 1000 plants.

**VARIETIES:** Iceberg, Imperial 44.

**PRICES:** By Mail Postpaid — 50 for 75c; 100 for \$1.00; 500 for \$3.00; 1000 for \$4.50.

By Express Collect — 1,000 to 4,000 at \$4.00 per 1,000; 5,000 to 9,000 at \$3.75 per 1,000; 10,000 and over at \$3.50 per 1,000.

## Broccoli Plants

Ready April and May—Calabrese Improved, Green Sprouting. A delicious vegetable, steadily gaining in favor. Similar to cauliflower, but hardier. Shipping weight 18 lbs. per 1000 plants.

**PRICES:** By Mail Postpaid — 50 for 75c; 100 for \$1.00; 500 for \$3.00; 1,000 for \$4.50.

By Express Collect — 1,000 to 4,000 at \$4.00 per 1000; 5,000 to 9,000 at \$3.75 per 1,000; 10,000 and over at \$3.50 per 1,000.

## Cauliflower Plants

Ready April and May. Our cauliflower plants are hardy and may be set earlier than home grown plants. Variety: Early Snowball, best and most widely used variety.

**PRICES:** By Mail Postpaid — 50 for \$1.00; 100 for \$1.50; 500 for \$7.00; 1,000 for \$12.00.

By Express Collect—1,000 to 4,000 at \$11.00 per 1,000; 5,000 to 9,000 at \$10.50 per 1,000; 10,000 and over at \$10.00 per 1,000.

## Beet Plants

Set our beet plants for early crop. Variety: Early Crosby Egyptian. Ready April and May. Shipping weight 18 lbs. per 1000 plants.

**PRICES:** By Mail Postpaid — 50 for 75c; 100 for \$1.00; 500 for \$3.00; 1,000 for \$4.50.

By Express Collect — 1,000 to 4,000 at \$4.00 per 1,000; 5,000 to 9,000 at \$3.75 per 1,000; 10,000 and over at \$3.50 per 1,000.

## *Field-Grown* Tomato Plants

**D**URING the past five years there has been a tremendous increase in the use of Southern field-grown tomato plants. They have proven to be the most satisfactory and economical solution of the tomato plant problem in the north both for large canning factories and home gardeners.

Piedmont Field-Grown Tomato Plants are grown in the open field where they are acclimated to outdoor temperature which enables them to be set in the open field. They are not frostproof as it is impossible to grow frostproof tomato plants. However, they are not like the tender seedlings you get from a greenhouse, but are large, stalky plants, hardy enough to make a quicker start than greenhouse plants.

Our field-grown tomato plants are grown from the best certified seed, which is disinfected before planting on disease free land. They are thoroughly sprayed by high pressure sprayers from the time they come up. This insures you true to name, disease free plants.

Our plants are carefully selected in the field as they are pulled one at a time. Each plant has a well developed root system. Many people think tomato plants are too tender a plant to ship long distances successfully. However, the way we wrap them with damp moss and paper, and pack them in special hampers, we can deliver them in good condition anywhere east of the Rockies.

## *Varieties*

Days to Harvest	Shape of Fruit
70	
73	
77	
80	
82	

**BONNY BEST.** A fine variety for early market and home garden. Vines are vigorous and fruit bright scarlet in color, and uniform in ripening.

**PRITCHARD or SCARLET TOPPER.** A wilt resistant variety similar to the Marglobe but earlier. It is disease resistant and very productive. The fruit is scarlet, large, smooth and globular in shape.

**MARGLOBE.** Wilt resistant tomato developed by U. S. Department of Agriculture. Fruit medium size, smooth and solid; globe shape, scarlet color, good shipper. Has become very popular for main crop.

**RUTGERS.** A new wilt resistant variety rapidly coming into favor in the eastern canning sections. Similar to the Marglobe in many characteristics, it produces slightly larger fruit and more foliage. Scarlet in color, it ripens from the inside out.

**GREATER BALTIMORE.** A mid-season variety, very popular for main crop and canning. Probably more of this variety used by large canners than any other variety. Very dependable, producing extra heavy crop of large firm tomatoes.

Start your tomato crop right with **PIEDMONT FIELD-GROWN PLANTS.** Ready April, May and June.

# Piedmont Pepper Plants

Our Pepper Plants, like tomato plants, are suitable for setting in the open field after danger of frost is over. Our plants are field-grown, and therefore more hardy than hotbed plants. Set these plants instead of trying to grow pepper from seed, and you will be surer of an early crop. Ready April, May and June.

*California Wonder*

**CALIFORNIA WONDER.** 75 days from plants. The outstanding sweet variety for market gardeners and shipping. Fruits four lobed and chunky, large size; flesh thicker than any other variety, sweet and mild.

Pepper plants wrapped 50 to bundle. Shipping weight 15 lbs. to 1000 plants.

# Sweet Potato PLANTS

Our Potato Plants are grown from selected seed stock grown on our own farms. They are treated for all kinds of disease, and are government inspected. Our customers are therefore protected from the many kinds of potato plant diseases which are becoming so prevalent throughout the South.

*Porto Rico*

**VINE PORTO RICO**—This is a southern Yam potato with rich, deep yellow meat, sweet and juicy. It is the most popular of the yam potatoes, and is an enormous

yielder. It can be grown successfully in many sections of the North, and we recommend it to those who have never tried the southern yam. Ready April, May and June.

Potato plants wrapped 50 to bundle.  
Shipping weight 16 lbs. to 1000 plants.

## Packing and Shipping

**P**IEDMONT Plants are packed in light, wirebound, wood veneer crates and hampers as shown in the illustration above. Roots are protected from exposure to the air, and the tops are ventilated. Express and mail service is back to normal, and we guarantee to deliver plants in perfect condition anywhere in the United States east of the Rocky Mountains. We advise Express shipment in quantities of 2000 and over, smaller quantities are usually cheaper by mail. Direct Air Express Service is available from Albany to the large commercial airports in the north. Shipments can be forwarded from these airports to local points by rail express. Rates are four to five times rail express rates. If interested write us for rates.

### SUGGESTIONS TO CUSTOMERS

**NAME ADDRESS, ETC.**—We wish to impress upon you the importance of writing your name and full address plainly. We cannot be responsible for delays due to incomplete local address. Give your R.F.D. or street address, and your express office if different from your post office.

**ORDERING DIFFERENT VARIETIES OF PLANTS**—If you order Cabbage, Onion, Tomato plants, etc., at the same time, make your remittance to cover the quantity of each kind of plants you order at the prices quoted. Do not order a smaller quantity of a variety than the smallest amount listed. Be sure to state the date you want the plants shipped.

*Field of Tomato Plants*

## Our Guarantee

We guarantee our plants to be exactly as described in this catalog, grown from the best seed obtainable, true to name, hand selected, varieties labeled and carefully packed.

We guarantee to ship your order promptly, and deliver the plants to you in perfect condition. If you are not satisfied on receipt of order, we will replace free of charge or refund your money, provided you notify us within 10 days after receipt.

We send you only the highest quality plants, and gladly stand back of them. However, weather, soil, and care also influence crops, so in no case shall we be responsible for any amount beyond the purchase price.

## TESTIMONIAL LETTERS

I received the plants and was very much pleased with them. They were the nicest plants I think I ever got from a catalog order.

—Mrs. Roy McDaniell, Cherrytree, Pa.

Your plants are the finest I have ever purchased. The fruit is far superior to any others.

—Anna M. Carstens, Ackley, Iowa.

Just a few lines to let you know that I think your plants are swell. Have been using them the last five years and they are always the same. I have only a small garden but have earlier vegetables than my neighbors, which I take pride in.

—J. O. Benkenstock, Reading, Pa.

The tomato plants we ordered from you deserve praising. Here in Iowa drought conditions have continued since July, causing terrible garden losses. But those tomato plants came through a snow storm and near freeze in May, floods in June and drought ever since. Because of lateness of season they did not begin bearing until early August. They are still bearing and we did not water them either. Others here had no tomato crop but we have had the biggest crop we ever harvested, thanks to Piedmont Plants. Those who purchased your plants from us praise them too. Thanks for our successful tomato season.

—Mr. and Mrs. Jess Finley,  
Brooklyn, Iowa.
